

There is a plan to destroy the United States of America. It is in its very advanced stages.

Long-cultivated political power struggles have now entered the physical realm.

They will likewise be intentionally escalated until the institutions of society are overwhelmed and no longer function.

KGB defector Yuri Bezmenov described Active Measures, the blueprint for destroying open societies:

WE ARE NOW IN PHASE III: THE CRISIS PHASE

Phase I: Demoralization. (This phase takes 15+ years to complete) The goal: no matter the evidence, some people cannot see the truth. **This has already been achieved.** Methods:

- **Sort society and get them to fight each other** – Inject ideology and normalize power struggle.
- **Create distrust of the media** - This has been achieved for Trump supporters.
- **Turn the people against their gov't** - Trump supporters do not trust the State Dept or FBI.
- **Destroy trust in every shared source of truth** – Science, media, the courts, elections, etc.
- **Subvert authentic religion** – Politicize and commercialize it. Prioritize entertainment.
- **Undermine the education system** - Only 36% of Americans can name the 3 branches of gov't.
- **Weaken the country itself** - The US is \$22T in debt, with a \$1T federal budget deficit in 2019.

Phase II: Destabilization. (2-5 years) The goal: increase public radicalization such that people cannot compromise, even about the relatively small things in their lives. **This has already been achieved.**

- **Elect a charismatic, inexperienced leader** – This marks the start of Phase II.
- **Normalize state violence** - State violence against immigrants and demonstrators has increased
- **Prevent any compromise** - *“Making guns illegal will result in violence.”* - Right-wing pundits

Phase III: Crisis. (2-5 months) **WE ARE HERE** The goal: create an opportunity to impose a new “normal” on society.

- *“We are one 9/11 away from losing our democracy.”* - Michael Moore, *documentary filmmaker*

Phase IV: “Normalization.” (perpetual) A new authoritarian “normal” exists. Society is controlled through violence.

Proposals:

1. Prepare for the worst. Immediately prepare for a shooting war between American citizens.
2. Avoid physical power struggles. Invite everyone to immediately de-escalate tensions.
3. Do not rely on the media. If they wanted to de-escalate, they would have done so a long time ago.
4. Learn about active measures and how all of the signs are clearly visible in the United States over the past 50+ years.
5. Support the institutions of society – they belong to you and they are your responsibility
